"Providing Consistent and Predictable Results"

SCHOOL STAFFING SERVICES

Clinical Resources School Nurse Staffing Program provides school districts with cost effective and reliable personnel, backed by nurses who understand the medical, clinical, and special needs of the students.

The demand for school nurses has increased, and only Clinical Resources can recruit adequate nurses to meet the demand. Why? Nurses like working for Nurses!

Working with our nations youth is special, so we select and work with only the best!

IT TAKES A HEALTHCARE PROFESSIONAL TO KNOW WHAT'S BEST

With Clinical Resources, school systems can be certain they will:

- Recruit, screen, and hire only the most competent and qualified school nurses
- Orient and train the school nurses to our company's high standards and specific school district requirements, as well as the unique and special needs of the students they serve
- Create a strong relationship with the school district by providing a dedicated Health Services Director, a Nurse Manager with extensive leadership and management abilities
- Provide competent and reliable services to students in keeping with the IEPs while nurturing relationships with the students and faculty alike

Our School Staffing Services is dedicated to your needs. We are specialists at matching candidates with the perfect school staffing position. Through our vast nationwide network and "talent sourcing" model we are able to rapidly respond to our clients with excellent results and personalized customer service, making us one of the most innovative and reliable school staffing and search firms.
